

GLOBAL SAFE NEWS BULLETIN

February 15, 2006

News Bulletins:

- o Global Safe (USA)
- o Russia certifies Safe Solution®
- o SlipAlert comes to Canada

Safe Solution®

- **Global Safe (USA)**

"We are very pleased to announce that Ms. Linda Perry, and Mr. Jerry Page, our Master Distributors for the USA Western Mountain Region, have officially joined the Global Safe USA management team, and will represent Global Safe's management team for the United States of America."

- **Russia certifies the Safe Solution® Anti-Slip Treatment System**

"We are happy to report that as of January 31, 2006, Russia has officially certified Global Safe's products for use in Russia. This now opens the door for the final stages of distribution into Russia."

- ***SlipAlert is coming to Canada**

*"*SlipAlert is an easy to use measuring device used to calculate the Coefficient of Friction "COF" on walking surfaces. The *SlipAlert people and Global Safe are in the final agreement stages to make Global Safe the exclusive distributor of *SlipAlert for Canada. Once finalized, *SlipAlert will be added to our product line up for worldwide distribution to our Global Safe distribution team."*

**This COF device will be used by Global Safe, and or by a representative of Global Safe, solely for our own COF measuring purposes, and shall not be used for legal purposes related to COF measurements and to the measurements of the anti-slip properties created by Global Safe's products, in relationship to Global Safe's Floor Safety Maintenance Program, and or to any other customer documentation, provided by Global Safe, and or by a representative of Global Safe."*
