

GREG ZEITLER
Global Safe Technologies Inc
11 Shoreline Circle
Port Moody B.C.

Dear Greg,

Thank you for introducing "Floor Care Program" at our Lynn Valley Restaurant. The managers and the maintenance personnel are very happy with the results and find that cleaning and maintaining the floor has been very easy. Your monthly Floor Safety Inspection Report has been quite a helpful tool in evaluating the performance of our cleaning crew.

Since you have applied the Anti-Slip solution in the kitchen, the employees are impressed that the product actually does what you said it would do. We have had a few instances where regular customers have commented about the floor tiles not being slippery as it used to. As you are aware that at McDonald's the floor can be greasy because of fryers and grills, we have so far had no incidents of slip and fall by the crew.

I look forward to using your services in my other restaurant in the near future.

Chandar P Maharaj
Supervisor.
