Stan Schaefer
Global Safe Technologies Inc.
265 - 19358 96th Avenue,
Surrey, BC V4N 4C1

Dear Stan,

I am writing this testimonial, on behalf of the Squamish Credit Union, to anyone with serious concerns regarding the safety of their business in relationship to the conditions of dealing with slippery floor surfaces.

In March of 2004, we had your company apply an anti-slip product to our ceramic tile floor surface. We also enrolled onto your floor safety maintenance program, and purchased your follow-up cleaner to use on our floor. It has now been nearly two years, and I can confidently say that the anti-slip treatment, the cleaning product, and the service provided by Global Safe Technologies Inc. have excelled beyond my expectations.

To maintain the level of safety that you have provided, and with your recommendations, we did not hesitate when it was time to have your company return to restore the anti-slip properties of our floor.

I am more than happy to fully recommend your business to any other person or business requiring your products and services. I would also like to add that the level of service your company has provided, in my opinion, is second to none!

Sincerely,

A handwritten signature in blue ink, appearing to read "Ivan Kowalchuk", is written over a faint, illegible background.
